

Understanding that the Directors of the Library are to meet  
this Evening I wish to propose to them by way of L<sup>t</sup> whether  
it is not most likely to have the number needfull for the Buifness  
Prop'd to be Transacted on Second Day next that notices should be  
Print'd & Sent to every Members house in the City on Second Day Mor-  
= ning, which may verry readily be done by Employing Some of the  
the Invited to burials or some other. without some Mode of this sort  
is taken I think we shall not have the Number Absolutely necessary  
which I submit to the Directors.
